Self-thought creative passionate about solving problems

March 2021 - present

Web Designer / Frontend Dev - Strive Human Resources

In this role, I am involved in the technical and graphical aspects of the look and feel of the company website, I'm also responsible for how it works and for the maintenance of the existing website/softwares while designing and implementing user-facing features for the Website, Jobboard & ATS

Dec 2019 - Jan 2021

Web Designer / It Support - Luvanex Group (USA)

In this role, I am responsible for the design, layout, coding and functionality of all 8 Luvanex websites and sales funnels worldwide. I always strive to create visually engaging designs with clear navigations and user friendliness. I also interpret ideas and convert to SEO contents.

I also maintain and monitor the computer networks and help in software installations while also solving technical issues.

Dec 2017 - Dec 2019

eLearning Developer/Visual Designer - AMA Creatives

As an elearning developer I helped plan, create, develop and support learning technology initiatives and also provide technical expertise for the programming of online educational content.

Webinars, web-based trainings and other learning technology offerings were put together with instructional design methods and theories to complete projects within scope.

I made sure I used best design practices to create user friendly and interactive computer bases training projects for various courses in systems training, facilitating, risk management, employee orientation, and HR subjects.

2015 - Dec 2017

Freelancer

Created multiple logos and brand manuals for startup companies like Play Planet, The Pineapple Factory etc.
Created lovely powerpoint presentations that have been used to enhance knowledge retention in basic classroom trainings.
I created graphical flyers, websites, blogs and social media contents for record labels, schools, food vendors, and churches.
